COMMUNIQUE

In the current context of a coronavirus epidemic, after consultation with our masters and guests, it seemed preferable to postpone the events. A date will be fixed later, depending on the evolution of the public health situation.

This postponement is not so much motivated by the potential dangerousness of the virus as by the concern to avoid the difficulties that would result from a cancellation too close to the event, either by administrative decision (stricter restrictions on gatherings imposed in France), or because of the impossibility for the Lamas, monks and participants to travel to France.

We regret of course to have to postpone these practices, but at the request of our masters, Neten Chokling Rinpoche, Ogyen Topgyal Rinpoche, and the Lamas and monks of Pema Ewam Chogar Gyurmed Ling will devote the time they had planned to spend in France to a druptchen of the Chimed Phama Nyingthig in their monastery in Bir (HP), India.

The new dates will be communicated as soon as possible, but in any case, due to the availability of the Domaine de Lembrun, it will not be possible to schedule the events before September.

Yours sincerely

The Board
